

PRESS RELEASE

Muehlhan wins USD 28.6 mil bridge project in San Francisco Bay

Hamburg, 29 August 2014 - The Muehlhan Group has been awarded a contract to repaint portions of the Richmond-San Rafael Bridge for the California Department of Transportation. This bridge was first opened to traffic in 1956, is 8.5 kilometers long and crosses the San Francisco Bay, connecting the cities of Richmond and San Rafael. The bridge has two decks; the upper deck carries west bound traffic, the lower deck carries east bound traffic. The scope of work included in the contract is to repaint the structural steel that supports the lower deck on 36 spans of the bridge. Each span is 88 meters long. The contract value is USD 28.6 mil. Work on the project will start this fall and complete in approximately three years.

About Muehlhan: Worldwide, the Muehlhan Group is a reliable partner in industrial services and high-quality surface protection. As one of the few full-service providers, we offer our customers a broad range of services designed to meet the exacting quality standards expected in professional industrial services. Our customers benefit from our exceptional organizational skills, on-time delivery, the technical expertise that differentiates us from our competitors and our more than 130 years of experience. Our operations are divided into five business segments: Ship Newbuilding, Ship Repair, Energy, Industry and Other Services. With our workforce of more than 2,300 employees at over 30 locations worldwide, we generated sales revenues of €208 million in 2013. We intend to use this stable foundation to further expand our business in the coming years and to continue moving our Group forward through proximity to our customers in the global market.
